Introduction

As an incentive to students, parents and educators, the Howard County Branch of the National Association for the Advancement of Colored People (NAACP) has issued a report card for the 2007-2008 School Year. The report analyzes the performance levels of African American students in each school in Howard County, Maryland. This activity is conducted in accordance with directives from the national headquarters of the NAACP to monitor African American student progress. The purpose of the report card is three-fold: 1) to focus attention on the needs of African American students, 2) to encourage and motivate students and educators to achieve at higher levels of performance, and 3) to engage our Partners in Education and the community in recognizing the importance of academic success and developing approaches to improve achievement for all students.

In 2001, the national headquarters of the NAACP issued a Call to Action in Education to address achievement gaps across the United States in six areas, each of which is covered in the report card:

- Attendance: Elementary, Middle, and High School
- Graduation Rate: Grade 12
- Drop-out Rate: High School
- Suspensions: Elementary, Middle, and High School
- Maryland School Assessment (MSA): Grades 3-8
- High School Assessment (HSA): Grades 10 and 11

Since the No Child Left Behind Act (NCLB) mandates that every public school meet state and federal academic standards by 2014, it is imperative for all stakeholders (students, parents, educators, community members, organizations, churches, and businesses) to become actively involved and committed to improving the performance of African American students. By combining the efforts of all stakeholders, the NAACP firmly believes that the goals of education can and will be achieved by all of our children.
